Monday-Friday 10 am - 6:30 pm  
Saturday 10 am - 5 pm (summer hours)  
Closed Sundays

Whether you're a novice in the kitchen or an experienced at-home chef, Cooks & Bakers Kitchen has everything you need to enhance your culinary creativity at home.

The store, which opened earlier this year at Dawley Farms, on the east side of Sioux Falls, specializes in top-quality cookware, bakeware, and kitchen gadgets, along with a variety of products for home entertaining and gifts. They have practical and unique items for sale, and Cooks & Bakers Kitchen also includes a

working demonstration kitchen focusing on cooking and baking basics.

Owner Joanne Bogus has three decades of experience in the hospitality industry, with leadership in organizations such as Ritz-Carlton, Hard Rock Café and Walt Disney World. She relocated to Sioux Falls, bringing her passion for cooking and baking that started many years ago in the kitchen with her mother. She and her "food mechanics" team at the store offer practical help — and live demonstrations — to inspire people to

explore new things in their home kitchens.

The store is stocked with all the essentials to make everything from salads and stir-frys to pastas and pastries. Throughout the week, the team hosts events at the store such as Gadgets Galore, Into the Frying Pan and Saturday Bake Shop, so you can see how their products work...and even taste recipes you can make at home. They keep updated information on their website and social media, as well as a twice-monthly newsletter that includes promotions, new product

highlights and recipes.

As they demonstrate the latest in cookware or handy gadgets, the experienced team can also provide advice on stocking your cupboards to boost both efficiency and creativity in the kitchen. If you need a little something for your pantry, you'll soon be able to find a variety of fine cutlery such as Wüsthof and food products like condiments, sauces and spices. They currently carry Neilson Massey, which they call "one of the best vanillas on the market."

If you are looking for a unique social event with family, friends or coworkers, Joanne and her team can organize a private cooking class with a culinary experience designed just for you. These small gatherings provide an opportunity for you to enjoy watching professional chefs and her team at work — or to jump in yourself and gain some hands-on practice in the kitchen. Cooks & Bakers Kitchen can offer wine, beer and non-alcoholic beverages as part of their private events and classes.

Looking for a gift for someone who enjoys cooking or a housewarming gift for your new neighbor? The team can also create one-of-a-kind gift baskets with fun themes like Dinner in Italy, Family Pizza Night or simply Kitchen Essentials (perfect for that young adult in their first home).

There is so much to see as you browse the shelves and racks, and Cooks & Bakers Kitchen always has free coffee to enjoy while you look around; macchiato or latte available from their fully-automatic Jura coffee maker. ☕
